PLEASE NOTE THESE DEADLINES.
AVOID PENALTY FOR LATE PAYMENT!
Full refunds given for cancellation on or before Jan. 15, 2018.
\$75.00 forfeiture through Feb. 25. No refunds after Feb. 25, 2018.

INCLUDES: 3 Breakfasts, 2 Lunches, Reception and more.

The Basic Program Objectives Are:

- To learn current concepts and treatment of the diabetic patient.
- To learn current treatment therapy for complicated wounds, identification, and nomenclature.
- To learn and familiarize ourselves with various surgical procedures used on the lower extremity including success, failure and salvage of such procedures.
- To learn current concepts of the ischemic limb and appropriate evaluation and management of the ischemic limb.
- To learn about joint implants, their successes, failures and salvage.
- To understand different bracing options for surgical treatments of the rearfoot.
- To understand the physical therapy implications of neurological deficits related to the lower extremity in acute care.
- To understand certain vascular protocols and how this relates to wound care and the ischemic limb.
- To understand pathological tumors affecting the lower extremity.
