## 2021 Current Concepts and Treatments

# WOUND CARE

## SEMINAR

Hosted by the Ohio Foot and Ankle Medical Foundation

Saturday, November 6, 2021 | 7:00 AM – 2:00 PM

6 Category I CME Hours

Embassy Suites Columbus — Airport  
2886 Airport Drive | Columbus, OH 43219

**THIS ONE-DAY SEMINAR** will present current concepts and treatments for wound care patients. Presentations will include reviewing all facets of wound care, including new techniques, treatments and available options for wound care treatment.

### WHO SHOULD ATTEND

Podiatric Physicians, Residents, Students and Medical Professionals in the Wound Care Field

### OBJECTIVES

- Recognize and employ current and new treatments for hard to heal wounds.
- Discuss how hyperbaric oxygen treatment can affect the treatment of osteomyelitis.
- Recognize when to utilize a multidisciplinary approach for wound care patients.
- Discuss the important role that nutrition plays in wound care and healing.
- Review the importance of biomechanics and offloading for wound care.

### ACCREDITATION

This Seminar has been accredited by the Ohio Foot and Ankle Medical Foundation Continuing Medical Education Accreditation Committee (the certifying agency in Ohio for podiatry). CME credit is established at 6 Category I contact hours for the State Medical Board of Ohio.

### NONDISCRIMINATION

No person shall be denied registration or participation in any continuing education program provided by this Association for reasons of race, religion, sex, national origin or physical ability. This program is ADA Compliant. Please notify OFAMF if you require special accommodation for training or attendance at (614) 457-6269

### REGISTRATION

Register online at [www.ohfama.org](http://www.ohfama.org); FAX at (614) 457-3375; or mail to: OFAMF 2021 Wound Care Seminar, 1960 Bethel Rd Ste 140, Columbus, OH 43220-1815. Make check payable to OFAMF. Registration closes on November 1, 2021. Registrations postmarked after that date will be charged the \$25 late registration fee *without* exception.

### CANCELLATIONS

A \$25 administration fee will be charged. Cancellations must be received by OFAMF prior to November 1, 2021. No refunds for cancellations will be honored after that date.

### ON-SITE REGISTRATIONS

Online and faxed registration will be closed on November 1; registration cannot be confirmed after that date. For on-site registration, add \$25 to the appropriate registration fee.

### CHANGES TO LECTURES OR SCHEDULES

OFAMF reserves the right to adjust or change any lecture or schedule due to unforeseen scheduling conflicts. Note: There are limited spaces and registrations are on a first-come, first-served basis.

### FACULTY DISCLOSURE

Each speaker is required to disclose the existence of any financial and/or other relationships (i.e., employee, consultant, speaker's bureau, grant recipient, research support) she or he might have with (a) manufacturer(s) of any commercial product(s) to be discussed during his/her presentation and/or (b) the commercial contributor(s) of the activity. Any such conflict will be announced by the individual introducing the speaker or by the speaker immediately preceding the lecture.

---

## FACULTY

### RICHARD SCHILLING, DPM — CHAIRMAN

Dr. Schilling is an esteemed podiatric physician with 19 years of experience. He is licensed in Ohio and is board certified in foot surgery. Dr. Schilling graduated from the Ohio College of Podiatric Medicine in 2002 with a Doctorate of Podiatric Medicine and completed a residency at DePaul Hospital in St. Louis, Missouri, as well as a Fellowship training in Reconstructive Foot and Ankle Surgery at the Weil Foot and Ankle Institute in Des Plaines, IL. Through his education and years of experience, Dr. Schilling has developed specializations in diabetic

foot care, sports medicine, reconstructive foot and ankle surgery, and wound care. Dr. Schilling is affiliated with several hospitals in his hometown of Columbus, OH, including Grant Medical Center and Mount Carmel East Hospital. Dr. Schilling is a past president of the Ohio Foot and Ankle Medical Association and is on the Board of Directors for the Ohio Foot and Ankle Medical Foundation.

### SAID ATWAY, DPM

Dr. Atway is a graduate of the Ohio College of Podiatric Medicine and completed his residency at The Ohio State University Wexner Medical Center. He is board certified by the American Board of Foot and Ankle Surgery. Dr. Atway is the Clinical Associate Professor at Ohio State University Wexner Medical Center, and the director of the Limb Preservation Program at Ohio State University Wexner Medical Center.

### MIKE CICCHILLO, MD

Dr. Cicchillo is a vascular surgeon in Youngstown, Ohio and is affiliated with multiple hospitals in the area, including Louis Stokes Cleveland Veterans Affairs Medical Center and Trumbull Memorial Hospital. He received his medical degree from Northeast Ohio Medical University.

### WINDY COLE, DPM

Dr. Cole is an adjunct professor and Director of Wound Care Research at Kent State University College of Podiatric Medicine. Dr. Cole also serves as the National Director of Professional Development and Clinical Education for Woundtech. She is board certified by the American Board of Foot and Ankle Surgery and the American Board of Wound Management. She has been a dedicated wound care advocate for two decades with interests focused on medical education, diabetic foot care, wound care, limb salvage, & clinical research. She is a feature writer for Podiatry Management and Today's Wound Clinic as well as a contributing writer for Podiatry Today. She is an Editorial Board member of Wound Management and Prevention, Podiatry Today, The Foot Journal and Lower Extremity Review. She is a wound care advocate on the forefront of wound research and was the 2020 World Union of Wound Healing Silver Medal Award recipient for her work in Technology-driven Research.

### JED JOHNSON, PHD

Dr. Jed Johnson has a PhD in Materials Science and Engineering from The Ohio State University, with a focus on biomedical applications. Dr. Johnson has served as the Principal Investigator on numerous grants from the NSF,

NIH, and State of Ohio. As an inventor of the technology, and with nearly a decade of experience building bio-engineered scaffolds, he is considered a world-leader in the field of tissue engineering.

### KRISHNA MANNAVA, MD

Dr. Mannava practices in Columbus, Ohio and launched Vive Vascular in 2020, the largest freestanding vascular center in the region. He is a graduate of Northeastern Ohio Universities College of Medicine, completed his surgery residency training at Case Western UH of Cleveland and a two-year vascular surgery fellowship at the Ochsner Clinic in New Orleans. He continues to hold academic teaching positions at The Ohio State University Wexner Medical Center and also at Ohio University College of Osteopathic Medicine. While Dr. Mannava provides a comprehensive range of vascular services, his passion is preventing unnecessary amputations in patients with peripheral arterial disease (PAD).

### KEVIN ROSENBLOOM, CPED

Mr. Rosenbloom, founder and President of Kevin Orthopedic Institute — started his journey with the foot and ankle back in 1985. He completed the Pedorthic program at Northwestern University Medical School, and led him directly into the operating room of the revolutionary and highly notable Lowell Weil, Sr., DPM. Dr. Weil took notice to Kevin's passion and talent and took him under his wing for two years – giving Kevin an insight into foot surgery, the research happening at the Weil Foot and Ankle Orthopedic Institute, and an in-depth look into biomechanics that proved invaluable. While he thought Med School was his clear path, the gaping hole of returned, misaligned and incorrectly produced Orthotics he saw while with Dr. Weil, handed him the milestone marker to re-route his direction. He realized where he could truly make the greatest impact was supporting the Orthopedic Surgeons, Podiatrists, Orthotists who operate at the highest by providing an Orthotic line to complement their quality of work.

### SONJA STOTZ, RD, LD

Ms. Stotz has over 30 years of experience working with adolescents and adult populations in both individual and group settings. Her nutritional philosophy is that all foods can fit into a balanced way of eating. Sonja specializes in several areas including overall general health, and modified nutrient diets recommended for medical/physical and/or emotional diagnoses (ex: heart health, diabetes, depression, anxiety, thyroid imbalances).
